

Certificate No. 2873

## Quality Policy Statement

Bela Electronic Designs is involved in the design, engineering and manufacturing of electronic products and is committed to maintaining a long term partnerships with our customers, associated providers and interested parties. This being built on integrity, added value service and a willingness to outperform any pricing advantage.

Our purpose and strategic direction have been aligned with the business context in which we operate. We will establish clear objectives for quality and monitor performance against them.

Bela Electronic Designs management is committed to complying and operating with the requirements of the international Quality Management System (QMS) standard ISO9001:2015 and to satisfy that statutory, regulatory and other applicable requirements are constantly met and understood. The management will provide a platform for continual improvement of the QMS and ensure that risks and opportunities are identified and do not affect the conformity of products and services and achieving the best solution for our customers.

This policy will be communicated to all employees and organisations. We will encourage our employees and organisations working for and on our behalf to follow our vision and co-operate in the smooth implementation of the policy whilst ensuring we provide all the necessary resources to guarantee our work and business activities are carried out without risk to the business, employees or the environment.

The quality system alone cannot achieve better quality. It is the duty of every employee of Bela Electronic Designs to accept areas of responsibility and involve all top management to demonstrate their leadership and encourage employees to contribute to the effectiveness of the QMS.
